# School in Sites™

WE CONNECT YOUR DOTS

School in Sites ™

Since the 1990's, SCHOOLinSITES has been providing web hosting solutions for schools and districts. Now that's a long time! Where would we even begin in discussing technology changes since the latter part of the last century? Maybe it is more important to take a look at what hasn't changed...Who we are!

When SCHOOLinSITES was founded by two brothers, we were one of the very few companies in the country providing web solutions to schools. Now, the marketplace is certainly more crowded, and as of the past couple of years most others have merged, sold out or have brought in venture capitalists to dictate the direction of their company and maybe, more importantly, the direction of their customers.

Every company must make tough decisions every day. SCHOOLinSITES is very proud that every decision we make is determined by the needs of our most important asset, our customers. We do not have to make decisions about our products, services or customer care based on analysts, Wall Street or fund managers. We make decisions quickly, with our core management team that has been in place since day one. We also make them unencumbered by outside forces, just like we did when we started, because THAT is who we are.

Table of Contents

You love education.
We love technology.

Do what you love, we'll handle the rest.

School-in-Sites. We connect your dots.

Introducing our new platform

Connect™

ℭ Connect™ Your Administrators

Reach Your Community

Connect Suite is your online community. Fully customizable classrooms keep your students and teachers engaged online. Notifications keep parents updated on homework assignments and other school news. Custom website design will showcase your district's success and highlight your brand, and our powerful user tools mean every user will see the things that matter most to them.
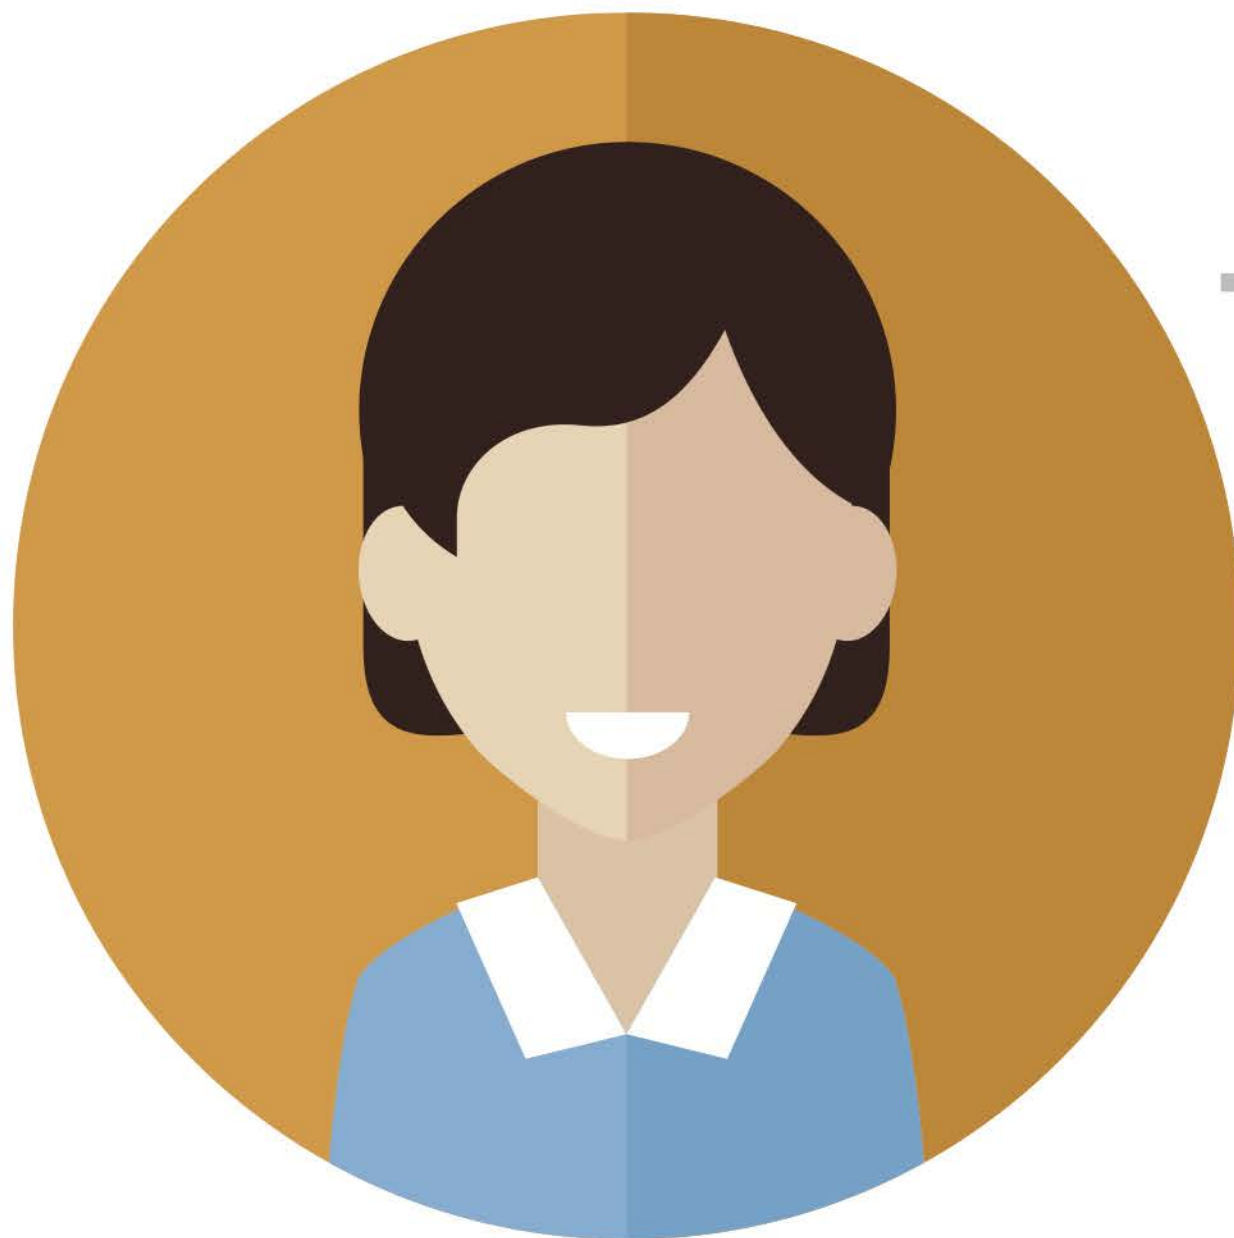

Empower Your Teams

With Connect Suite, your team members get the tools they need. Teachers have online classrooms and a platform to manage their clubs, sports, and programs. Your communications staff have a wide variety of ways to get your message out. Your technology team can stay focused on keeping your local systems running, as we handle all of the servers and support. And parents and students have great new ways to engage with the learning process.

Make Video Front and Center

Our robust video platform gives you the ability to bring video front and center. Broadcast live sports, bringing games to the screens of everyone in your community. Enrich your teacher's homework assignments with videos that get your students engaged. Keep everyone informed with video of your PTA and other important school meetings.

Connect™ Your Teachers

Take Your Classroom Online

Teachers can manage all of their classes, online assignments, and more, creating a simple yet robust page with all of their content. Our secure online classrooms provide safe online interaction that protects students and teachers, keeping parents in the loop.

Manage Your Class or Club

Your class or club is simple to connect with. Teachers have complete control of membership and content, while students can join quickly. Parents stay notified of events, assignments, and direct communication with teachers and students. And students can even turn in their homework online.

Get Everyone Involved in Learning

Snow days can be a thing of the past. Online classrooms empower teachers to interact with students, posting lessons, videos, and more. Parents can manage multiple students all in one place and see assignments, upcoming events, interact with teachers, and much more. When people are connected, they can all get more involved in the learning process.

# Your Technology Director

A System That Works

Connect Suite is not only a powerful CMS, but a complete solution that will save your IT department time and resources. Teachers and staff have permissions-based access that gets them to the areas they need every day. Connect Suite is built ground up for schools and education.

Safe, Secure, and Worry-free

We do all the heavy lifting when it comes to server security and maintenance. Our secure servers host all of the content, and we keep the system up to date for you.

We'll Handle the Support

Our amazing support team is available by phone or email for any user, making sure that your stakeholders spend less time on technology and more time on education. Why should a 3rd grade math teacher have to contact you if they have a question regarding their homework page? Our support team is ready to answer every call.

Connect™ Your Communications Director

Manage All Your Content

Our robust video platform gives you the ability to bring video front and center. Broadcast live sports, bringing games to the screens of everyone in your community. Enrich your homework assignments with videos that get your students engaged. Keep everyone informed with video of your PTA and other important school meetings.

Get More Done From Anywhere

You can use Connect Suite on any device at any time, making it a versatile tool to handle all of your communications. Post school news, update your websites, send notifications, and even post video updates or stream live events.

Help Your School Communicate

Communication is at the core of Connect Suite. SMS text messages and email notifications are built in, allowing quick notification from your district, school, or individual teachers. For example, in an emergency situation, seconds can count. Our simple messaging platform can send email and SMS text message alerts to all of your users at either the school or district level.

Connect™ Perfect for You

A Name You Can Trust

For nearly twenty years SCHOOLinSITES has been providing internet solutions for schools and districts. We've stuffed all that experience into Connect Suite, building it from the ground up with education in mind.

A Personal Relationship

SCHOOLinSITES believes our relationship with our customers is extremely personal. It is the major reason why we lead the industry in customer retention. We believe that each customer has unique needs and we are committed to help meet those needs.

Take It For A Test Drive

We'd love for you to see the Connect Suite in action. Give us a call to get started, and we'll have you up and running in our demo playground in no time.
